GENERAL INDEX

TO THE

JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION.

VOLS. I TO XXIV, INCLUSIVE.

BY

WILLIAM B. ATKINSON, M.D.

PERMANENT SECRETARY.

CHICAGO:
AMERICAN MEDICAL ASSOCIATION PRESS.
1896.

PREFACE.

In order to make the vast literary treasures of the JOURNAL more accessible to the members of the ASSOCIATION, and to medical writers generally, I submitted the matter to the Trustees of the ASSOCIATION and they, by unanimous vote, authorized the publication of the work.

It appeared in every way desirable that the Permanent Secretary of the ASSOCIATION, DOCTOR W. B. ATKINSON, who prepared the Index to the thirty volumes of "Transactions" which preceded the publication of the JOURNAL, should also prepare this index, so as to make the two conform as nearly as practicable. Dr. Atkinson's prompt compliance with the request, will I am sure, be gratifying to all friends of the ASSOCIATION. With the "Index to the Transactions" and the General Index herewith, one may have the key to the AMERICAN MEDICAL ASSOCIATION proceedings and papers from 1849 to 1894, and since 1883 to all medical matters that have appeared in the JOURNAL.

Many writers who have neither a set of the Transactions nor of the JOURNAL in their own libraries, will, nevertheless, find the Indexes useful because, for the most part, sets are kept in the larger libraries and are easily accessible.

JOHN B. HAMILTON,
Editor of the JOURNAL.
